

## **Community Voice Current Activities “Hertfordshire Group”**

### **1. Herts. Valleys Clinical Commissioning Group:**

**a. Hertfordshire stroke services:** We seek stroke services for residents of Hertfordshire to match the stroke services available to London residents. Major reorganisation and investment is necessary to achieve that goal. We raise this issue in NHS meetings in Hertfordshire at every opportunity. An interim goal is to press for the provision of 24 hour / 365 day per year access to CT scans, to permit early thrombolysis for suitable patients.

### **2. West Herts Hospitals NHS Trust:**

**a. Watford General Hospital's rebuild:** This major project includes, in addition to rebuilding the hospital, the building of a new road and the opening of a new route for the Metropolitan Line to Watford, with a station serving Watford General Hospital. We monitor all proposals carefully.
